  It is an application to help parents know whether a child or person has autism or not, ways to deal with it, and exercises to reduce autism

- **Tic Tac Toe app game**
  Tic tac toe is a two-player game wherein the players will
  have to choose either X or O in a 3×3 grid.
  The first player can choose any position in the grid and both
  will get one move at a time, one after the other. The player
  who succeeds in placing three of their marks in a horizontal,
  vertical, or diagonal row wins the game.
  Tools/ languages required – Android Studio, Java, XML, other app by - flutter framework
