English	Very good

## Experience

---

**Nov 2022- Now**

**Position: Civil Site Engineer**

**Company: Fayez Aljundi For Contracting Company**

**Project: Construction of Police Center/ Aqaba**

**Job Description:**

- Served as the Resident Engineer for the Construction of the Police Center in Aqaba
- Provided hands-on supervision and technical guidance to ensure the successful implementation of project works, including squares and corridors, such as paving of sidewalks and roads.
- Managed the project throughout its lifecycle, from the foundation phase to the final finishing of civil works.
- Oversaw all landscaping works, ensuring they met project specifications and quality standards.
- Collaborated closely with the project team, subcontractors, and stakeholders to address issues, resolve challenges, and ensure the project's timely completion.
- Conducted regular site inspections to monitor progress, quality, and safety compliance.
- Prepared and reviewed project documentation, including drawings, schedules, and reports.
- Ensured strict adherence to project specifications, budgets, and timelines.
- Maintained a strong focus on safety, implementing and enforcing safety protocols to protect workers and the community.
- Managed procurement and inventory of construction materials to meet project requirements efficiently.
- Fostered a culture of teamwork and productivity among on-site staff
- Maintained accurate project records, including daily logs and progress reports.

**April.2021 -Oct.2022**

**Position: Civil Site Engineer**

**Company: Fayez Aljundi For Contracting Company**

**Project: construction and implementation of 20 houses**

**Job Description :**

- Acted as the Resident Engineer for a high-profile construction project involving the construction and implementation of 20 houses.
- Led a team of construction professionals in the successful execution of the project, ensuring it met quality, safety, and timeline standards.
- Supervised the implementation of various civil works, including squares and corridors, with a focus on paving sidewalks and roads. Ensured that all work adhered to engineering specifications and regulatory requirements.
- Held full responsibility for the project lifecycle, from the foundation phase through to final finishing civil works, demonstrating strong project management skills and attention to detail.
- Oversaw the construction of retaining walls for the 20 houses, ensuring structural integrity and compliance with architectural plans.

- Managed and supervised all landscaping works on the project site, enhancing its aesthetic appeal and environmental sustainability.
- Collaborated closely with architects, contractors, and subcontractors to address technical issues, streamline project progress, and resolve any challenges that arose during construction.
- Conducted regular site inspections and quality checks to maintain the highest construction standards and meet client expectations.
- Successfully delivered the project on time and within budget, earning recognition for meeting or exceeding project milestones and quality benchmarks.

### **Training Courses**

---

- CIVIL3D

50 hours course about design all road in the country.

- PREMEVERA

40 hours course about using Revit program to work out a timetable for projects in an engineering way

### **PC Knowledge**

---

AutoCAD	Very good
MS Office	Very good
Premevera	Very good
Civil 3D	Very good

### **Personal Skills**

---

Project Management  
Construction Supervision  
Contract Management  
Construction Planning  
Resource Allocation  
Technical Guidance  
Problem Solving
