## Industrial & Systems Engineer

✉ asemjudeh@outlook.com    📞 +970569933481    📍 Nablus, West Bank, Palestine    📅 01/02/1995

### Profile

---

I am a seasoned Industrial & Systems Engineer from Nablus with expertise in quality management and strategic operations. Graduated from An-Najah National University, I've excelled in roles at the Palestinian Environment Quality Authority and the National Beverage Company. I combine hands-on experience with skills in data analysis, production planning, and ISO 9001/2015.

Hisham Hijawi collage (20 hours)

### Professional Experience

---

**Palestinian Environment Quality Authority, Monitoring and Inspection Engineer** 08/2023 – present  
Nablus, Palestine

- Conducted comprehensive inspection field visits to diverse industrial facilities, including factories, stone saws, and quarries, ensuring their alignment with both industrial and environmental standards.
- Led pre-inspection evaluations for proposed sites of telecommunications towers and various industrial infrastructures, securing necessary environmental approvals.

**Al Judeh Auto Spare Parts Company, purchase and store management** 12/2018 – 04/2023  
Nablus, Palestine

- Cultivated and maintained robust relationships with local suppliers to streamline procurement.
- Negotiated effectively with suppliers, ensuring competitive pricing and optimizing after-sales services.
- Issued purchase orders and managed sales invoicing seamlessly.
- Rigorously inspected incoming goods for compliance with established specifications and quality standards.
- Efficiently oversaw inventory and storage processes to ensure optimal operations.

**National Beverage Company (Coca Cola), Quality Control**

02/2018 – 04/2018

- Upheld product, process, and material conformance in alignment with internal quality standards and customer specifications.
- Ensured regular calibration, verification, and validation of measurement instruments for accuracy.
- Supported investigations by gathering and analyzing data, disseminating findings, and overseeing corrective action resolutions for quality discrepancies.
- Led data analysis initiatives to validate component quality, processes, and data accuracy.
- Strategically addressed and implemented corrective measures in response to identified issues.

**Palestine Standards Institution, Trainee Industrial engineer**

06/2017 – 07/2017

- Oversaw technical standards in Palestine's calibration sector.
- Ensured proper accreditation of calibration devices.
- Managed committees and training related to calibration.
- Addressed institutional complaints.

**The National Aluminum & profile company (NAPCO), Trainee Industrial engineer**

05/2017 – 06/2017

- Examine practices and operations in production departments technically and administratively.
- Verify final product and raw material quality through chemical and physical assessments to ensure standard compliance.
